

## Press Release

### CST announces keynote speakers for the European User Conference 2017

**Darmstadt, Germany, March 14 2017 – Computer Simulation Technology AG (CST) invites users to the European User Conference (EUC) 2017 at the Science & Congress Center darmstadtium, Darmstadt for a program of technical presentations and workshops. The conference will see keynote speeches on virtual environments, modern antenna design, lean engineering, and simulation in space programs.**

The CST EUC offers a collaborative and educational environment where engineers using CST STUDIO SUITE® tools can exchange ideas and talk with CST staff about future developments. The main EUC sessions will run from April 27 - 28 and will feature focus sessions for different application areas, such as electromagnetic compatibility and antennas, and industries such as bio-medical devices and energy.

In addition, on April 26, 2017, we will host a one-day Aerospace Workshop at the Science & Congress Center darmstadtium, with CST and customer presentations focused on the needs of the aerospace industry.

This year, the EUC keynotes will be delivered by Dr. Georg Schwab, Managing Director of AVL Software and Functions, who will speak about future development methodologies with virtual environments, and Dr.-Ing. Roland Rathgeber, Senior Expert RF Methods & Tools at KATHREIN-Werke, who will talk about how CST STUDIO SUITE is used in a leading antenna company.

The Aerospace Workshop will also feature keynote speeches from Dr. Siegbert Martin, Head of Passive Microwave Products at Tesat-Spacecom, on lean engineering processes for a smart factory, and by Piermario Besso, Head of Antenna and Infrastructure Section at ESA/ESOC who will talk about EM simulations applications and challenges in the European space program.

User presentations are at the heart of CST's user conferences. Alongside the technical sessions, a social program will give users the chance to network and discuss their simulations with other experts in the field.

*"Our European User Conferences are always a highlight of our calendar," said Dr. Martin Timm, Director of Global Marketing, CST. "We look forward to seeing our users' presentations and hearing their suggestions for the future direction of our products."*

More information on the conference can be found at [www.cst.com/EUC](http://www.cst.com/EUC).

###

### About CST- Computer Simulation Technology AG

Founded in 1992, CST is a market leader in delivering 3D electromagnetic (EM) field simulation tools through a global network of sales and support staff and representatives. CST develops CST STUDIO SUITE, a package of high-performance software for the simulation of EM fields in all frequency bands. Its growing success is based on a combination of leading edge technology, a user-friendly interface and knowledgeable support staff. CST solutions are used by market leaders in a diverse range of industries, including aerospace, automotive, defense, electronics, healthcare and telecommunications. On September 30 2016 CST joined the SIMULIA brand of Dassault Systèmes. Further information about CST is available on the web at [www.cst.com](http://www.cst.com).

### About SIMULIA

The SIMULIA brand of Dassault Systèmes enables users to leverage physics-based simulation and high-performance computing to power sustainable innovation for products, nature, and life. As an integral part of the Dassault Systèmes 3DEXPERIENCE platform, SIMULIA realistic simulation and optimization applications accelerate the process of making mission-critical design and engineering decisions before committing to costly and time-consuming physical prototypes. ### About Dassault Systèmes

Dassault Systèmes, the 3DEXPERIENCE Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 210, 000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit [www.3ds.com](http://www.3ds.com).

### Trademarks

CST, CST STUDIO SUITE, CST MICROWAVE STUDIO (CST MWS), CST EM STUDIO, CST PARTICLE STUDIO, CST CABLE STUDIO, CST PCB STUDIO, CST MPHYSICS STUDIO, MPHYSICS, CST MICROSTRIPES, CST DESIGN STUDIO, CST EMC STUDIO, CST BOARDCHECK, PERFECT BOUNDARY APPROXIMATION (PBA), and the CST logo are commercial trademarks or registered trademarks of Dassault Systèmes, a French "société européenne" (Versailles Commercial Register # B 322 306 440), or its affiliates in United-States and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes or its subsidiaries trademarks is subject to their express written approval. 3DEXPERIENCE, the Compass logo and the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, GEOVIA, EXALEAD, 3D VIA, BIOVIA, NETVIBES and 3DEXCITE are registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or other countries.
