

Press Release

## CST STUDIO SUITE Student Edition 2017 Now Available

**Honolulu, Hawaii, June 6 2017, Computer Simulation Technology (CST), part of SIMULIA, a [Dassault Systèmes](#) brand, announces the release of CST STUDIO SUITE® Student Edition 2017 at MTT-S IMS, booth #1332. This free version of the market leading electromagnetic simulation tool is developed as part of the CST® educational program to support learning, teaching and research at academic institutions.**

CST STUDIO SUITE Student Edition contains the versatile high-frequency time domain and frequency domain solvers as well as the static and thermal solvers. It is supported by a set of online examples showing how classic textbook problems can be solved with simulation. The software can be incorporated into the coursework for a class, and the online examples mean that it can also be used by individual students for independent extracurricular learning at both undergraduate and postgraduate level.

Version 2017 of the Student Edition includes technology improvements from the full CST STUDIO SUITE 2017 release earlier in the year.

*“In 2017 alone, CST STUDIO SUITE Student Edition has helped over eight thousand students around the world to study Maxwell’s equations and experiment with their applications and we hope to extend its reach even further in the future,”* said Dr. Martin Timm, Director of Global Marketing, CST. *“As part of our Academic Program, the CST STUDIO SUITE Student Edition helps prepare students for future careers in industry and research.”*

### Availability

CST STUDIO SUITE Student Edition 2017 can be downloaded from <https://www.cst.com/academia/student-edition/download>. All users of CST STUDIO SUITE Student Edition should upgrade to the newest version. Previous versions will no longer be supported.

### About CST- Computer Simulation Technology AG

Founded in 1992, CST is a market leader in delivering 3D electromagnetic (EM) field simulation tools through a global network of sales and support staff and representatives. CST develops CST STUDIO SUITE, a package of high-performance software for the simulation of EM fields in all frequency bands. Its growing success is based on a combination of leading edge technology, a user-friendly interface and knowledgeable support staff. CST solutions are used by market leaders in a diverse range of industries, including aerospace, automotive, defense, electronics, healthcare and telecommunications. On September 30 2016 CST joined the SIMULIA brand of Dassault Systèmes. Further information about CST is available on the web at [www.cst.com](http://www.cst.com).

### About Dassault Systèmes' SIMULIA

The SIMULIA brand of Dassault Systèmes enables users to leverage physics-based simulation and high-performance computing to power sustainable innovation for products, nature, and life. As an integral part of the Dassault Systèmes 3DEXPERIENCE platform, SIMULIA realistic simulation and optimization applications accelerate the process of making mission-critical design and engineering decisions before committing to costly and time-consuming physical prototypes. ### About Dassault Systèmes

Dassault Systèmes, the 3DEXPERIENCE Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 220, 000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit [www.3ds.com](http://www.3ds.com).

### Trademarks

CST, CST STUDIO SUITE, CST MICROWAVE STUDIO (CST MWS), CST EM STUDIO, CST PARTICLE STUDIO, CST CABLE STUDIO, CST PCB STUDIO, CST MPHYSICS STUDIO, MPHYSICS, CST MICROSTRIPES, CST DESIGN STUDIO, CST EMC STUDIO, CST BOARDCHECK, PERFECT BOUNDARY APPROXIMATION (PBA), Filter Designer 2D, Filter Designer 3D and the CST logo are commercial trademarks or registered trademarks of Dassault Systèmes, a French "société européenne" (Versailles Commercial Register # B 322 306 440), or its affiliates in United-States and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes or its subsidiaries trademarks is subject to their express written approval. 3DEXPERIENCE, the Compass logo and the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, GEOVIA, EXALEAD, 3D VIA, BIOVIA, NETVIBES and 3DEXCITE are registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or other countries.
